ECOLOGICAL ASPECTS OF A CALIFORNIA MARINE ESTUARY

G. E. MacGINITIE

TABLE OF CONTENTS

Introduction	630
Materials Used	631
Location and Physical Features	633
Tides	638
Bottom Soil	639
Plant Life	643
Temperature	645
Oxygen	645
Salinity	646
Light	647
Pollution	647
Food Supply	647
Association, Zoning and Numbers	653
Abundance of Organisms	656
New Species and Extension of Ranges	657
Parasitism and Commensalism	659
Tropisms in General	661
Nocturnal Activities	662
Concerning Migrations from Ocean to Land	663
Geological Indications	665
Conditions at the Slough on July 7, 1927	669
Phyletic Catalog of Animals, with Natural History Notes	670
Protozoa	671
Porifera	673
Coelenterata	673
Ctenophora	678
Platyhelminthes	678
Nemertea	680
Sipunculoidea	681
Echiuroidea	682
Phoronida	686
Bryozoa	687
Annelida	687
Echinodermata	697
Arthropoda	699
Crustacea	699
Mollusca	719
Tunicata	746
Vertebrata	746
Pisces	746
Aves	749
Bibliography	751
Alphabetical Index	763
